

25th JAPAN INTERNATIONAL MACHINE TOOL FAIR

**JIMTOF 2010**

Oct 28 (Thu.) - Nov 2 (Tue.), 2010 Tokyo Big Sight

THE BEST SOLUTION FOR YOU

## NIIGATA MACHINE TECHNO

Booth No. E4001 (East Hall 4)

[MACHINES EXHIBITED]

HN63Ti

HN130D-BAR

The brand name NIIGATA on a machine tool has stood for quality, reliability, and innovation for more than 100 years. Niigata Machine Techno Co., Ltd. continues the tradition as A WORLD Leader in Horizontal Machining Centers. Eliminate risks and increase your Profit !

### HN63Ti

Niigata had been developing high performance horizontal machining centers. Now, this is very special machine for Hard materials cutting purpose only. "Difficult to cut Materials" can be easily cut by this super-rigid machine HN63Ti. Amazingly reduced vibration of the machine body during cutting, it is based on newly developed construction by Niigata's high technology with our traditional workmanship.

### HN130D-BAR

Niigata's HN130D horizontal machining center, always known for rugged, reliable performance, can be equipped with a BAR style spindle now. This BAR version brings long-sought improvements in performance and accuracy to the work traditionally done by horizontal boring mills. Superior features, such as "Faster Traverse and Feed speeds", "Center-Mounted Spindle" is available.

We are very much looking forward to seeing you at our booth.
