### Machine Tools

NIIGATA MACHINE TECHNO

Every industry, as automobile, IT, etc., is seeking higher speed, higher accuracy, and less human power, to decrease their production costs. Machine Tools Division will respond exactly to such demands by offering the state-of-the-art "Horizontal Machining Centers", from pallet size 500 by 500 to 1000 by 1000 mm with sophisticated peripheral accessories. We can propose the best tailored system to meet each customer's special demands by integration of variety of field-proved optional features.

"Machine Rigidity", Niigata's backbone, is the fundamental factor of all Niigata machines, and higher accuracy and higher speed is embodied on it to materialize extremity and completeness of the possibility of "Horizontal Machining Centers". From among Niigata's wide variety of line-ups such as SPN-01 series machines, which introduced "BOX-IN-BOX" concept first in the machine tools industry featuring higher accuracy and higher rigidity at the same time, and HN-series machines, which features high accuracy and super-rigidity, you can select best suited machines in accordance to your various demands and purposes. Machine Tools Division is developing

FORMING A NEW WORLD  
High-Performance & Technology For Your Future  
Our "Technology", "Creativity", "Forward-Push"  
creates never-ending New-Value

#### //Horizontal Machining Centers//

High speed & High performance SPN01series  
(SPN501/ SPN503/ SPN701/SPN901)

Super-rigid HN-series  
(HN50E/HN63E/HN80D-II/HN100D-II/HN130D)

Versatile machines  
(HN80D-II FC/HN100D-II FC/HN130D FC/  
HN80D-II BAR/HN100D-II BAR/HN130D BAR)
